

## **CAPTAINS REPORT OCTOBER**

I am pleased to report to the Secretary the successful completion of our 100 mile event in the Isle of Man. As in all events of this duration and complexity not everything goes to the plan and the bad weather in the night made conditions especially difficult, but in respect of judging, time keeping and lap recording the event was sound and we again welcome new members to the British Centurions.

It was a pleasure to see new Centurions take such pride in their achievement and showed just what our event is about. I have written to both our President and John Eddershaw thanking them for their continued efforts on our behalf. The race was positively reported from friends in the media both internet based and in the newspaper on the Isle of Man.

I'm also pleased to report to the Secretary that plans are advancing for a training walk and we have continued support and interest in our event.

The British 100 mile continues to generate interest and going forward we must promote our race in a professional manner that will increase our profile and numbers at our event. Your Captain acknowledges the support of the Secretary and committee in our recent discussions in changes to our media profiles.

**Martin Fisher c.788**

Captain – Centurions 1911
